**Computer Systems Experiences of Users with and Without Disabilities: An Evaluation Guide for Professionals (Rehabilitation Science in Practice Series)** Simone Borsci, Masaaki Kurosu, Stefano Federici, Maria Laura Mele

This book provides the necessary tools for the evaluation of the interaction between the user who is disabled and the computer system that was designed to assist that person. The book creates an evaluation process that is able to assess the user's satisfaction with a developed system. Presenting a new theoretical perspective in the human computer interaction evaluation of disabled persons, it takes into account all of the individuals involved in the evaluation process.
