Culture and Citizenship (Politics and Culture series)

`Culture' and `citizenship' are two of the most hotly contested concepts in the social sciences. What are the relationships between them? This book explores the issues of inclusion and exclusion, the market and policy, rights and responsibilities, and the definitions of citizens and non-citizens. Substantive topics investigated in the various chapters include: cultural democracy; intersubjectivity and the unconscious; globalization and the nation state; European citizenship; and the discourses on cultural policy.
