## **Despertar el alma. Estudio junguiano sobre la Vita Nuova (Spanish Edition)** Rosario Escrimieri

Despertar el alma. Estudio junguiano sobre la Vita Nuova interpreta el proceso de transformación que se representa en la obra de Dante a la luz de la psicología profunda de C.G. Jung, en concreto de su teoría sobre la individuación. La individuación como proceso que genera a un individuo psicológico puede reconocerse simbólicamente en la dinámica inherente a esta obra, dinámica que apunta tanto hacia el nacimiento de un individuo moral y espiritualmente diferenciado como de una poética nueva y original. Los presupuestos metodológicos implicados en este estudio hacen referencia a los conceptos esenciales del pensamiento de C.G. Jung: funciones de la conciencia, símbolo y arquetipos (persona, sombra, ánima, sí-mismo), imaginación activa y función transcendente.
