Growing a Japanese Science City: Communication in Scientific Research (Nissan Institute/Routledge Japanese Studies) James W. Dearing

Tsukuba Science City is the world's most ambitious attempt to 'turbocharge' scientific collaboration. James W. Dearing looks at the political and economic context within which the plans for Tsukuba were laid, how those plans changed during the process of implementation, and at the functioning of Tsukuba today. Tsukuba is vitally important to Japan's basic scientific research. Its history, its failures and successes need to be understood by governments and businesses planning for scientific research and economic growth.
