Defense and Detection Strategies Against Internet Worms (Artech House Computer Security Series)

Jose Nazario

Focusing exclusively on Internet worms, this book offers you solid worm detection and mitigation strategies for your work in the field. This ground-breaking volume enables you to put rising worm trends into perspective with practical information in detection and defence techniques utilizing data from live networks, real IP addresses and commercial tools. It helps you understand the classifications and groupings of worms, and offers a deeper understanding of how they threaten network and system security. After examining how a worm is constructed and how its major life cycle steps are implemented, the book scrutinizes targets that worms have attacked over the years and the likely targets of the immediate future. Moreover, this reference explains how to detect worms using a variety of mechanisms and evaluates the strengths and weaknesses of three approaches - traffic analysis, honeypots and dark network monitors, and signature analysis. The book concludes with a discussion of four effective defences against network worms, including host-based defences, network firewalls and filters, application layer proxies, and a direct attack on the worm network itself.

From reader reviews:

Sara Burns:

Nowadays reading books are more than want or need but also turn into a life style. This reading behavior give you lot of advantages. The benefits you got of course the knowledge the rest of the information inside the book that improve your knowledge and information. The info you get based on what kind of guide you read, if you want get more knowledge just go with training books but if you want feel happy read one having theme for entertaining including comic or novel. Often the Defense and Detection Strategies Against Internet Worms (Artech House Computer Security Series) is kind of book which is giving the reader erratic experience.

Della Ferguson:

Information is provisions for those to get better life, information presently can get by anyone in everywhere. The information can be a know-how or any news even a problem. What people must be consider whenever those information which is in the former life are challenging to be find than now is taking seriously which one works to believe or which one the actual resource are convinced. If you find the unstable resource then you get it as your main information it will have huge disadvantage for you. All those possibilities will not happen within you if you take Defense and Detection Strategies Against Internet Worms (Artech House Computer Security Series) as the daily resource information.

Fannie Vincent:

Your reading 6th sense will not betray an individual, why because this Defense and Detection Strategies Against Internet Worms (Artech House Computer Security Series) e-book written by well-known writer who really knows well how to make book which might be understand by anyone who have read the book. Written within good manner for you, still dripping wet every ideas and writing skill only for eliminate your own personal hunger then you still doubt Defense and Detection Strategies Against Internet Worms (Artech House Computer Security Series) as good book not merely by the cover but also with the content. This is one publication that can break don't evaluate book by its protect, so do you still needing a different sixth sense to pick this!? Oh come on your reading through sixth sense already said so why you have to listening to an additional sixth sense.

Grace Smith:

What is your hobby? Have you heard which question when you got students? We believe that that concern was given by teacher to the students. Many kinds of hobby, Every person has different hobby. And you know that little person such as reading or as reading through become their hobby. You must know that reading is very important and book as to be the factor. Book is important thing to incorporate you knowledge, except your own personal teacher or lecturer. You discover good news or update about something by book. Different categories of books that can you decide to try be your object. One of them is this Defense and
