**Los recursos territoriales valencianos: Bases para el desarrollo (Spanish Edition)** Varios Autores

Esta publicación se fundamenta en el análisis de los componentes y actividades del sistema territorial de la provincia de Valencia, susceptibles de consolidarla e impulsarla socioeconómicamente, garantizando la calidad de vida de sus habitantes. Así pues, el trabajo efectuado revisa los factores que son genuinos, que dan carácter y que explican en primer lugar la realidad territorial presente y el modelo territorial al que aspiramos como colectivo. Se han tratado de abordar cuáles son los diferentes aspectos a considerar en el análisis de las potencialidades de desarrollo socioeconómico provincial y apuntar algunas de las posibles líneas a emprender para construir un territorio, que impulse y sustente las iniciativas locales de desarrollo, y definir las fases y actuaciones a tener en cuenta para el despliegue de actividades generadoras de crecimiento económico y empleo productivo.
