Research Paper from the year 2012 in the subject Cultural Studies - Miscellaneous, , language: English, abstract: Because the human mind gets caught in little niches, in the diversity of the numerous slots of a mighty cosmic computer, without its being aware of this interface and connectedness to the totality of life, which includes all cultural diversities in a gigantic all-encompassing unity of life, it is helpful to remember this interconnectedness to the whole with all its parts in order to integrate cultural diversity challenges. On the operating system level of the cosmic computer - whose operating system software can run all cultural programmers - to which cultural players can switch at will in the wink of an eye, as it is matter of consciousness, whose speed transcends that of light, all cultural programmes are accessible and manageable.
