*Architecturally Speaking* is an international collection of essays by leading architects, artists and theorists of locality and space. Together these essays build to reflect not only what it might mean to 'speak architecturally' but also the innate relations between the artist's and architect's work, how they are distinct, and in inspiring ways, how they might relate through questions of built form. This book will appeal to urbanists, geographers, artists, architects, cultural historians and theorists.
