Japan, the Toothless Tiger Declan Hayes

East Asia: the world's most dangerous flash point brought to life by a true insider.

Once a political and economic powerhouse, Japan now finds herself severely weakened and in a very troubling situation with a belligerent and expansionist China on one side and a still-influential but distant and waning America on the other.

Declan Hayes draws on his experiences teaching in Japan for over a decade at Tokyo's Sophia University to give an insider's perspective on this topic, placing the Pacific situation in a political context. Hemmed in by mounting tensions with China over the Senkaku / Diaoyu Islands and facing nuclear threats from North Korea, what should Japan do? Should she rearm? Should she get the bomb? What are the consequences of rearming, or not rearming?

In this second edition, Professor Hayes includes a preface with updates about recent developments in Asia. As the permanent interests of China and Japan, East Asia's main protagonists, do not and *cannot* change, *Japan: The Toothless Tiger* is even more relevant now than when it was first published.
