Last Train to Waverley Malcolm Archibald

To commemorate the involvement of Scots Regiments in WWI "Last Train to Waverley" is set in France during one week in March 1918. The Germans launched their final major offensive of the war and pushed the British back thirty miles. One unit of the 20 Royal Scots were cut off. This book follows the fortunes of this unit, and the personal dilemmas of Douglas Ramsay, the officer in charge. Lieutenant Ramsay returns from hospital to the front line in March 1918. Before he has time to get to know his men, the Germans attack and break through the British lines. He is left in an isolated position with a handful of men. Most of his men are very young but he has two veterans in Sergeant Flockhart and Corporal McKim. Unfortunately Ramsay and Flockhart have a bad history, the details of which come out in a series of flashbacks throughout the book. Ramsay leads the survivors of the 20th Royal Scots back through the German lines to try and reach the always moving British positions. He is aided by Flockhart and McKim as he encounters various German formations on the way, including a crack Prussian platoon. As the Royals find their way back, the back stories of the sergeant and the officer are revealed through a series of flashbacks that show the social tensions and difference in lifestyles of the period. The book climaxes when Ramsay leads his men through the town of Albert in Picardy. The German advance slows as the soldiers loot the town. Ramsay's men reach the British lines and a machine gun ambush wipes out the Prussian Guards.
