Kristine S. Retherford Ph.D.

Guide to Analysis of Language Transcripts - Analyzing Language Production in Children (Second Edition) Kristine S. Retherford Ph.D.

This book evolved from the frustration experienced when attempting to teach undergraduate and graduate student clinicians to analyze language production in children. While many procedures are available, most failed to meet my needs as an instructor; they lacked explicit directions and offered limited interpretation of results. The procedures included in this Guide attempt to improve existing procedures by providing explicit directions, guided practice, and principles for interpretation of results. This Guide takes readers from the data collection stage through the organization and analysis of data to the early stages of remediation planning. Includes completed analysis forms; discusses general production analysis considerations, semantic analysis, syntactic analysis, and pragmatic analysis; includes a blank transcription form; unanalyzed language transcripts; ...and much more.
