The Building Acts and Regulations Applied: Buildings for Public Assembly and Residential Use

C.M.H. Barritt

This book forms part of a unique, highly practical and time-saving three volume presentation of the Building Regulations, each book covering all the regulations relating to specific building usage. The chapters of each volume form self-contained units covering all the Regulation requirements applicable to a particular part of a building; thus the reader can ensure that all the Regulations are fully met. Also included is a digest of published standards, guides and technical information as well as reviews of the new Eurocodes currently being introduced.

The Building Acts and Regulations Applied: Buildings for Public Assembly and Residential Use covers all the regulations relating to buildings used for public assembly or residential purposes (other than houses and flats), such as theatres, sports stadia, hotels, prisons and halls of residence. It is a useful course companion for BTEC HNC/D and degree courses in building, architecture, surveying, estate management and other built environment disciplines. It is also an ideal reference source for all professionals working in these areas.
