## **Biobased Lubricants and Greases: Technology and Products (Tribology in Practice Series)** Lou Honary

Due to the rise in petroleum prices as well as increasing environmental concerns, there is a need to develop biochemicals and bioproducts that offer realistic alternatives to their traditional counterparts; this book will address the lack of a centralized resource of information on lubricants and greases from renewable sources, and will be useful to a wide audience in industry and academia. It is based on 20 years of research and development at the UNI-NABL Center, and discusses the various types of vegetable oils available, comparing their characteristics, properties and benefits against those of typical petroleum oils as well as discussing common evaluation tests and giving examples and case studies of successful applications of biobased lubricants and greases. Whilst scientific and engineering research data is included, the book is written in an accessible manner and is illustrated throughout.

- Focuses on an industrial application of lubrication technology undergoing current explosive growth in the global market.
- Includes a detailed review of the material benefits of plant-based lubricants that include a better viscosity index and lubricity even at extreme temperatures, lower flammability due to higher flash points and lower pour points.
- Covers the basic chemistry of vegetable oils as well as their profiles for use in lubricants and greases and environmental benefits.
- Includes examples and case studies of where vegetable-based lubricants have been successfully employed in industry applications.

### **From reader reviews:**

#### **Lola Taylor:**

As people who live in often the modest era should be change about what going on or info even knowledge to make these keep up with the era and that is always change and make progress. Some of you maybe may update themselves by reading books. It is a good choice for you but the problems coming to a person is you don't know which you should start with. This Biobased Lubricants and Greases: Technology and Products (Tribology in Practice Series) is our recommendation to help you keep up with the world. Why, because book serves what you want and want in this era.

#### **Judy Young:**

The reserve untitled Biobased Lubricants and Greases: Technology and Products (Tribology in Practice Series) is the publication that recommended to you to study. You can see the quality of the publication content that will be shown to an individual. The language that article author use to explained their way of doing something is easily to understand. The author was did a lot of research when write the book, to ensure the information that they share for you is absolutely accurate. You also could get the e-book of Biobased Lubricants and Greases: Technology and Products (Tribology in Practice Series) from the publisher to make you far more enjoy free time.

#### **Loretta Faria:**

People live in this new day of lifestyle always try to and must have the time or they will get lot of stress from both daily life and work. So , whenever we ask do people have spare time, we will say absolutely indeed. People is human not just a robot. Then we consult again, what kind of activity do you possess when the spare time coming to you of course your answer will unlimited right. Then do you try this one, reading textbooks. It can be your alternative inside spending your spare time, often the book you have read is Biobased Lubricants and Greases: Technology and Products (Tribology in Practice Series).

#### **Rosemarie Nicoll:**

This Biobased Lubricants and Greases: Technology and Products (Tribology in Practice Series) is great e-book for you because the content which can be full of information for you who else always deal with world and get to make decision every minute. This book reveal it facts accurately using great arrange word or we can state no rambling sentences within it. So if you are read the item hurriedly you can have whole facts in it. Doesn't mean it only provides you with straight forward sentences but tough core information with lovely delivering sentences. Having Biobased Lubricants and Greases: Technology and Products (Tribology in Practice Series) in your hand like having the world in your arm, information in it is not ridiculous a single. We can say that no book that offer you world within ten or fifteen second right but this publication already do that. So , it is good reading book. Hey Mr. and Mrs. stressful do you still doubt this?
