Psychology and the Internet: Intrapersonal, Interpersonal, and Transpersonal Implications

Psychology and the Internet: Intrapersonal, Interpersonal, and Transpersonal Implications

Psychology and the Internet provides the first resource for examining how the Internet affects our definition of who we are and our communication and work patterns. It also examines how normal behavior differs from the pathological with respect to Internet use. The book contains three sections: the first section covers the "self" in relation to the Internet; the second section explores how the Internet is used to meet new friends and love interests, as well as to conduct business; and the final section examines the philosophical ramifications of Internet use and our definitions of reality and consciousness.

Key Features

- * Provides the first resource for looking at how the Internet affects our definition of who we are
- * Examines the philosophical ramifications of Internet use and our definitions of self, reality, and work
- * Explores how the Internet is used to meet new friends and love interests, as well as to conduct business
- * Discusses what represents normal behavior with respect to Internet use

Peter Wilson:

Is it you who having spare time subsequently spend it whole day by watching television programs or just telling lies on the bed? Do you need something new? This Psychology and the Internet: Intrapersonal, Interpersonal, and Transpersonal Implications can be the reply, oh how comes? A fresh book you know. You are and so out of date, spending your free time by reading in this fresh era is common not a nerd activity. So what these textbooks have than the others?

Stacie Schneider:

As a university student exactly feel bored for you to reading. If their teacher asked them to go to the library as well as to make summary for some book, they are complained. Just little students that has reading's heart and soul or real their hobby. They just do what the educator want, like asked to go to the library. They go to there but nothing reading very seriously. Any students feel that examining is not important, boring along with can't see colorful pictures on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this era, many ways to get whatever you want. Likewise word says, many ways to reach Chinese's country. So , this Psychology and the Internet: Intrapersonal, Interpersonal, and Transpersonal Implications can make you truly feel more interested to read.
