Branding Unbound: The Future of Advertising, Sales, and the Brand Experience in the Wireless Age

Rick Mathieson

"If you're in marketing, advertising, or branding, consider this: While it used to take three television spots for a product to register with its intended audience, it can now take as many as seventy. Are people simply tuning out marketing messages? No. They're simply choosing which messages to tune in. Thanks to wireless technology, customers now have the luxury of responding (or not responding) to advertising when, where, and however they like. Leading companies such as Wal-Mart, McDonald's, Starbucks, Kellogg's, NBC, MTV, Procter & Gamble, DaimlerChrysler, and others are already reaching millions of customers, one at a time, wirelessly. The technology gives these companies an unprecedented view of buying patterns and the ability to identify and market specifically to the most likely customers. In *Branding Unbound*, author Rick Mathieson reveals how your business can emulate some of the most powerful and successful branding strategies in the world. In addition, Mathieson has conducted exclusive, insightful Q&As with some of the modern legends of cutting-edge marketing and business: * Seth Godin, author of *Permission Marketing*, *Unleashing the Idea Virus*, and *Purple Cow*, discusses permission marketing in a wireless landscape. * Tom Peters, "the father of the postmodern corporation" and author of *The Brand You 50* and *In Search of Excellence*, offers the Peters Principles for the wireless era. * Don Peppers, world-renowned marketing thought leader and author of *Enterprise One-to-One*, talks about how mobility will alter the brand experience. * Christopher Locke, author of *The Cluetrain Manifesto* and *Gonzo Marketing*, presents a "Cluetrain Manifesto" for the Mobile Age. * Chet Huber, President of OnStar, describes how the demand for in-vehicle services and information will change drivers' relationships with their vehicles. * Gary Hamel, Chairman of Strategos and author of *Leading the Revolution* and *Competing for the Future*, discusses the first priority of the wireless age: strategic transformation. * Howard Rheingold, author of *Smart Mobs* and *The Virtual Community*, champions the new "self-organized entertainment" of "flash mobs." *Branding Unbound* also offers a jargon-free look at current and emerging wireless technologies, examines the impact of social networking on mBranding strategy, and reveals the Top Ten Secrets of Successful Mobile Advertising. In the wireless marketing era, your brand can enjoy whole new levels of differentiation and customer recognition, while consumers benefit from on-the-spot convenience and a message individually tailored to their needs. *Branding Unbound* shows just how to harness the virtually limitless power of this amazing convergence of advanced technology and progressive business strategy to create the truly remarkable experience that will keep customers' attention and win their loyalty."
