Unity and Modularity in the Mind and Self: Studies on the Relationships between Self-awareness, Personality, and Intellectual Development from Childhood ... International Library of Psychology)

Andreas Demetriou, Smaragda Kazi

This book explores the relationships between intellectual development, self and personality, and proposes a comprehensive theory which answers such fundamental questions as: how do humans become aware of themselves? How do people come to know and influence each other? These questions are answered on the basis of four empirical studies, highlighting the development of self-awareness in those aged from 10 to 20 years.

Brenda Luna:

As a scholar exactly feel bored to reading. If their teacher asked them to go to the library or make summary for some publication, they are complained. Just minor students that has reading's heart or real their passion. They just do what the instructor want, like asked to the library. They go to presently there but nothing reading seriously. Any students feel that studying is not important, boring along with can't see colorful images on there. Yeah, it is to become complicated. Book is very important for you. As we know that on this age, many ways to get whatever you want. Likewise word says, ways to reach Chinese's country. Therefore this *Unity and Modularity in the Mind and Self: Studies on the Relationships between Self-awareness, Personality, and Intellectual Development from Childhood ... International Library of Psychology*) can make you sense more interested to read.
