Gender Tool Kit: Transport: Maximizing the Benefits of Improved Mobility for All (Gender Tool Kits) Asian Development Bank

This tool kit assists staff and consultants of the Asian Development Bank (ADB) and partner governments in conceptualizing and designing gender-responsive programs and projects in transport sector operations. It aims to help users identify gender equality issues and to develop practical design elements into transport operations. It guides users on key questions to be asked and data to be collected during project preparation, and provides a menu of entry points for designing gender-inclusive transport projects. The tool kit presents the rationale for why gender equality issues are important in transport sector operations and provides guidance and suggestions for integrating gender in key transport subsectors. Case studies from ADB projects have been included to illustrate good practices in mainstreaming gender concerns in transport sector operations.
