Millions of American families from every race, creed, and economic background are losing hope as the United States continues slide deeper into fiscal insanity and moral decay. Where will America stand when we lose our traditional values, border security, and limited government?

Having gained insight from industry experts in farming, energy, infrastructure, and finance, author Douglas MacKinnon has outlined one alternative to our existing government in an entirely constitutional and legal approach—secession from the United States of America.

President Abraham Lincoln once said, “This country, with its institutions, belongs to the people who inhabit it. Whenever they shall grow weary of the existing government, they can exercise their constitutional right of amending it, or their revolutionary right to dismember or overthrow it.” With this patriotic wisdom of Abraham Lincoln and Thomas Jefferson in mind, MacKinnon also works in conjunction with a team of highly experienced individuals from Special-Ops, intelligence, the military, and constitutional law to provide you with the answers to why, how, when, and where as he outlines what secessionism would bring.

Using maps, charts, and excerpts of previously published materials to supplement his own interviews and research, MacKinnon has written a powerful, one-of-a-kind book that will initiate conversation—and movement—throughout the country.
