Environmental Social Science: Human - Environment interactions and Sustainability

Emilio F. Moran

Environmental Social Science: Human - Environment interactions and Sustainability Emilio F. Moran
Environmental Social Science offers a new synthesis of environmental studies, defining the nature of human-environment interactions and providing the foundation for a new cross-disciplinary enterprise that will make critical theories and research methods accessible across the natural and social sciences.

- Makes key theories and methods of the social sciences available to biologists and other environmental scientists
- Explains biological theories and concepts for the social sciences community working on the environment
- Helps bridge one of the difficult divides in collaborative work in human-environment research
- Includes much-needed descriptions of how to carry out research that is multinational, multiscale, multitemporal, and multidisciplinary within a complex systems theory context
