App Development: Secrets to Creating Apps for iPhone, iPad and Android Benjamin Bressington
Do you have an idea for an app?
Would you like to make an app but not sure what to make?
Do you want to fast track you success when you create your app?

Thank you for downloading my ebook Secrets To Creating Apps for iPhone, iPad and Android. In this ebook I am going to explain to you how you can publish an app with no coding, programming or design experience. That's right it is possible and it will be easier than you think.

Why Did I Write This?
Because I know what it is like to be little confused about how to start but have a burning desire to make an app. I too would get excited by the stories of app millionaires and wanted to be just like them. I started with no coding, programming experience and now have over 300 apps published on multiple platforms all in 12 months.

That's right it is possible and when you start publishing apps you will get addicted, there is nothing like the feeling of having an app published and hearing people speak about it. Watching the top ranking charts and seeing your app climb to the top 25 positions is like the thrill of a roll-a-coaster. Once you have experienced it you want that rush over and over again.

I have taken everything I have learnt the good the bad and the ugly and created trainings that will help people fast track their app success. I love the world of apps and how this mobile technology is really impacting peoples lives. The app world right now is exploding and there is no better time to create your own apps. Once you receive your first revenues you will soon see that one app is not enough and you too will want to create more apps.

If you want more information about the courses, trainings or programs that I have created visit my website to find out more.

To your app success.
