India's Foreign Policy features scholars specializing in different dimensions of foreign-policy analysis who examine the dynamics of India's international relations. It reviews India's economic growth that has propelled it to the status of a globally-recognized power, and examines its nuclear policy and maritime strategy as a register of its present capabilities and future aspirations. It also features news media as an important index to—and catalysis for—the formulation of government policies, and India's bilateral and multilateral relations.
