There are more than 4000 miles of navigable waterways in Great Britain, with more in Ireland and Europe. Peaceful canals, bustling rivers, glorious lakes - there is something for everyone. This book will **tell the reader all they need to know about how to get afloat** - which boat to choose, whether to hire or buy, how much it will cost, and where they can go. Boat **handling and manoeuvring are covered in detail**, along with maintenance and repair. And there is a section on trailer boating for those who want to keep their boat at home, advice on living aboard for long periods, night-time navigation and training.

This is **the only book novices will need** to take their first steps afloat, and it is the one they will keep by them throughout their boating years.
